EDUCATION

Course	Board/University	Year	CGPA %
B.Tech (CSE)	Maharishi University of Information and Technology	2024	8.4 (Till 7th sem.)

INTERNSHIP

- **Full Stack Developer (MERN) | Pantech.AI | Remote**   **May 2024 - Aug. 2024**
  - Full Stack Development: Actively contributed to the development of web applications by leveraging a combination of front-end and back-end technologies, including HTML, CSS, JavaScript, and frameworks such as React.js or Angular for the front end, and Node.js, Express.js, or Django for the back end.
  - Problem Solving and Troubleshooting: Demonstrated proficiency in identifying and resolving technical challenges through systematic debugging, testing, and implementation of effective solutions, ensuring optimal functionality and performance of web applications.

- **Full Stack Developer | IEEE, Bombay Section | Remote**   **Dec. 2022 - Feb. 2023**
  - Full Stack Development Contribution: Actively participated in the development lifecycle of web applications, showcasing proficiency across the entire stack, from designing intuitive user interfaces with HTML and CSS to implementing dynamic functionalities using modern JavaScript frameworks like React.js. Assisted in backend development tasks, including API integration and database management with technologies such as Node.js and MongoDB.
  - Collaborative Problem Solving: Engaged in collaborative problem-solving efforts within the development team to identify and resolve technical challenges efficiently. Contributed innovative solutions to enhance application performance, user experience, and code maintainability, fostering a culture of continuous improvement and teamwork.

PROJECT

- **Netflix clone | Streamify**
  - Streamify, my latest project, is a sleek and user-friendly streaming platform reminiscent of Netflix.
  - Crafted with advanced HTML, CSS, and modern JavaScript, it delivers an immersive entertainment experience tailored for today's audiences.

- **E-commerce | Full Stack**
  - Introducing our cutting-edge e-commerce platform, meticulously crafted with the latest technology stack, an intuitive admin panel, and seamless payment gateway integration.
  - Leveraging my full stack development expertise, I've engineered this platform with a comprehensive array of technologies, including HTML5, CSS3, JavaScript (React.js), Node.js, Express.js, MongoDB, and Stripe for secure transactions.

OTHER INFORMATION

- **Technical Skills & Tools**:
  Problem Solving : C++, Java.
  Front-end : HTML5, CSS3, Modern JS, DOM Manipulation.
  Framework : React, Angular, vue
  Back-end : Node.js, Express.js
  Others : Sql, No sql, express API, Redux, JWT, Tetsing, Git, Axios, Heroku, vercel, Netlify.
